SUMMIT HOSE REELS

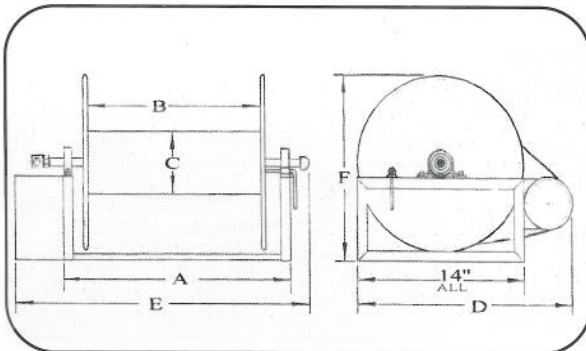

FEATURES & BENEFITS

- Square aluminum frame design generally found only on large Heavy Duty Reels.
- Disc is made of high grade aluminum with rolled edge and strengthening ridge.
- Bolt on spring-loaded locks, for easy field adjustment, or replacement.
- High quality sealed bearings. No lubrication required.
- Adjustable tension spring, keeps hose from free rolling.
- Center drum made with extra thick schedule 80 PVC (stronger than steel).
- Aluminum is corrosion resistant and weighs 35% less than steel reels.
- All Reels are rated at 250° and 3500 PSI operating pressure with Viton seals.
- All Reels are built with the finest quality material available for long lasting service.
